

MITHOS

MITHOS Project

Innovative AI-driven decision-making tool for multimodal transport infrastructures

KEY FEATURES

Federated Smart Data (FSD) platform with FAIR-compliant data management

AI-based multi-criteria optimisation for planning and operations

Real-time monitoring, simulation and forecasting

Interactive Human–Machine Interface (HMI) visualisation

Impact Assessment Module (SaaS) for performance and compliance evaluation

PILOT SITES

Bilbao (ES) · Hamburg (DE)
Vienna / Linz (AT) · Thessaloniki (EL)

Funded by
the European Union

**FUNDED BY THE EUROPEAN UNION UNDER
THE HORIZON EUROPE PROGRAMME.**
